

Brookfield Infrastructure Announces Sale of Australian Regulated Distribution Business for \$410 Million

JUL 03, 2013

July 3, 2013 – Brookfield Infrastructure (NYSE: BIP; TSX: BIP.UN) today announced that it has signed definitive agreements to sell its 42% interest in its Australasian regulated distribution business for approximately NZ\$525 million (US\$410 million). Brookfield Infrastructure acquired its initial interest in the business in 2009 as part of the recapitalization of Babcock & Brown Infrastructure.

“This sale provides another opportunity to harvest capital from one of our mature businesses at attractive returns, with the objective of recycling the proceeds into higher returning investments,” said Sam Pollock, Chief Executive Officer of Brookfield Infrastructure.

The transaction is subject to approval of the Overseas Investment Office, a New Zealand government agency, and is expected to close by the end of 2013.

Brookfield Infrastructure operates high quality, long-life assets that generate stable cash flows, require relatively minimal maintenance capital expenditures and, by virtue of barriers to entry and other characteristics, tend to appreciate in value over time. Its current business consists of the ownership and operation of premier utilities, transport and energy assets in North and South America, Australasia and Europe. It also seeks acquisition opportunities in other infrastructure sectors with similar attributes. The payout policy targets 3% to 7% annual growth in distributions. Units trade on the New York and Toronto stock exchanges under the symbols BIP and BIP.UN, respectively.
