We may make such statements in this report, in other filings with Canadian regulators or the SEC or in other communications. The words "expect", "target", "believe", "objective", "anticipate", "plan", "estimate", "growth", "increase", "return", "expand", "maintain", derivatives thereof and other expressions of similar import, or the negative variations thereof, and similar expressions of future or conditional verbs such as "will", "may", "should", "could", which are predictions of or indicate future events, trends or prospects and which do not relate to historical matters, identify forward-looking statements. Forward-looking statements in this Supplemental Information include among others, statements with respect to our assets tending to appreciate in value over time, current and proposed growth initiatives in our assets and operations, increases in FFO per unit and resulting capital appreciation, returns on capital and on equity, increasing demand for commodities and global movement of goods, volume increases in the businesses in which we operate, expected capital expenditures, the impact of planned capital projects by customers of our businesses, the extent of our corporate, general and administrative expenses, our ability to close acquisitions and the expected timing thereof, our capacity to take advantage of opportunities in the marketplace, the future prospects of the assets that Brookfield Infrastructure operates or will operate, ability to identify, acquire and integrate new acquisition opportunities, long-term targeted returns on our assets, sustainability of distribution levels, the level of distribution growth and payout ratios over the next several years and our expectations regarding returns to our unitholders as a result of such growth, operating results and margins for our business and each of our operations, future prospects for the markets for our products, Brookfield Infrastructure's plans for growth through internal growth and capital investments, ability to achieve stated objectives, ability to drive operating efficiencies, return on capital expectations for the business, contract prices and regulated rates for our operations, our expected future maintenance and capital expenditures, commissioning of capital from our backlog, ability to deploy capital in accretive investments, impact on the business resulting from our view of future economic conditions, our ability to maintain sufficient financial liquidity, our ability to draw down funds under our bank credit facilities, our ability to secure financing through the issuance of equity or debt, expansions of existing operations, financing plans for operating companies, foreign currency management activities and other statements with respect to our beliefs, outlooks, plans, expectations and intentions. Although we believe that Brookfield Infrastructure's anticipated future results, performance or achievements expressed or implied by the forward-looking statements and information are based upon reasonable assumptions and expectations, the reader should not place undue reliance on forward-looking statements and information because they involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Brookfield Infrastructure to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements and information.

Factors that could cause actual results to differ materially from those contemplated or implied by forward-looking statements include: general economic and financial conditions in the countries in which we do business which may impact market demand for our products and services, foreign currency risk, the level of government regulation affecting our businesses, the outcome and timing of various regulatory, legal and contractual issues, global credit and financial markets, the competitive business environment in the industries in which we operate, the competitive market for acquisitions and other growth opportunities, availability of equity and debt financing, the impact of health pandemics, such as the COVID-19, on our business and operations (including the availability, distribution and acceptance of effective vaccines), the completion of various large capital projects by customers of our businesses which themselves rely on access to capital and continued favourable commodity prices, weakening of demand for products and services in the markets for the commodities that underpin demand for our infrastructure, our ability to complete transactions in the competitive infrastructure space (including the transactions referred to in this presentation, some of which remain subject to the satisfaction of conditions precedent, and the inability to reach final agreement with counterparties to transactions referred to in this presentation as being currently pursued, given that there can be no assurance that any such transaction will be agreed to or completed) and to integrate acquisitions into existing operations, our ability to complete large capital expansion projects on time and within budget, our ability to achieve the milestones necessary to deliver targeted treturns to our unitholders, including targeted distribution growth, ability to negotiate favourable take-or-pay contractual terms, traffic volumes on our toll roads, our ability to obtain relevant regulatory approvals and satisfy conditions precedent required to

We caution that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to Brookfield Infrastructure, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Except as required by law, Brookfield Infrastructure undertakes no obligation to publicly update or revise any forward-looking statements or information, whether written or oral, that may be as a result of new information, future events or otherwise.

CAUTIONARY STATEMENT REGARDING USE OF NON-IFRS. ACCOUNTING MEASURES

Although our financial results are determined in accordance with International Financial Reporting Standards (IFRS), the basis of presentation throughout much of this report differs from IFRS in that it is organized by business segment and utilizes, funds from operations (FFO), adjusted funds from operations (AFFO), adjusted EBITDA and invested capital as important measures. This is reflective of how we manage the business and, in our opinion, enables the reader to better understand our affairs. We provide a reconciliation to the most directly comparable IFRS measure on pages 35-43 of this Supplemental Information. Readers are encouraged to consider both measures in assessing Brookfield Infrastructure's results.

BUSINESS ENVIRONMENT AND RISKS

Brookfield Infrastructure's financial results are impacted by various factors, including the performance of each of our operations and various external factors influencing the specific segments and geographic locations in which we operate; macro-economic factors such as economic growth, changes in currency, inflation and interest rates; regulatory requirements and initiatives; and litigation and claims that arise in the normal course of business. These and other factors are described in Brookfield Infrastructure's most recent Annual Report on Form 20-F which is available on our website at www.brookfieldinfrastructure.com and at www.sec.gov/edgar.shtml and www.sedar.com.

Distribution per unit

PERFORMANCE HIGHLIGHTS

- FFO of \$493 million in the first quarter represents an increase of 14% over the prior year on a total basis, 3% on a per unit basis
- FFO per unit growth of 3% was impacted by the shares issued in conjunction with the Inter Pipeline privatization and an equity offering completed in November for which investments have been secured but did not meaningfully contribute to results in Q1
- Prior year results included a ~\$65 million contribution from exceptional gas storage performance
 - FFO and FFO per unit increased 35% and 22% after adjusting for this impact, respectively
- Organic growth was 10% reflecting the high inflationary environment, strong market sensitive revenues at our midstream assets, and earnings associated with ~\$1 billion of capital commissioned over the last 12 months
- Significant contribution from our asset rotation program following the privatization of Inter Pipeline in the second half of 2021
- Distribution of \$0.54 per unit represents an increase of 6%
- Net income benefited from recent acquisitions and organic growth, prior year results included disposition gains and exceptional performance at our gas storage business
- Total assets increased compared to December 31, 2021 due to foreign exchange and the acquisition of an Australian regulated utility

OPERATIONS

- Deployed ~\$300 million of growth capital expenditures to increase the rate base at our utility operations, expand capacity at our transport and data businesses and progress construction of a Petrochemical facility
- Continued strong performance at our U.K. regulated distribution business with ~100,000 connection sales, a 32% increase compared to the first quarter of 2021, and the second highest quarter on record
- Acquired a small-scale residential heating and cooling business at our North American residential infrastructure business and have fully integrated the five tuck-in acquisitions completed in 2021
- Completed ~700 km of transmission lines at our Brazilian electricity transmission operation bringing the total lines commissioned to ~4,300 km
- Completed the sixth liquefaction train at our U.S. LNG export terminal, bringing total LNG capacity to 30 mtpa, that will be underpinned by long-term take-or-pay agreements beginning in 2023
- Executed long-term transportation service agreements at Inter Pipeline with ~CAD230 million of capital requirements that combined will add ~CAD50 million in annual run-rate EBITDA by 2025 (BIP's share - ~\$25 million)
- Completed the acquisition of a leading indoor coverage solutions provider at our Indian telecom operation for ~\$20 million net to BIP
- Secured our first site for our data center build-out in India alongside our partners with the acquisition of a parcel of land in Chennai

STRATEGIC INITIATIVES

- Secured or deployed the proceeds from our November equity offering through three transactions:
 - Completed the acquisition of AusNet Services Ltd., a regulated utility in Australia for ~\$500 million (BIP's share) on February 16, 2022
 - Closed the acquisition of Intellihub, the leading provider of electricity smart meters in Australia and New Zealand, for ~\$215 million (BIP's share) on April 1, 2022
 - On April 14, announced an agreement to acquire Uniti Group Ltd. (Uniti) in a A\$3.7 billion take private transaction through a 50/50 joint venture partnership; net to BIP equity of ~\$200 million with closing expected in the third quarter
- Continued to progress our active capital recycling program and expect to generate up to \$2 billion over the next 12 months. The most advanced sales processes are for our Indian toll road business and our 2,400 kilometers of newly constructed electricity transmission lines in Brazil

FINANCING AND LIQUIDITY

- Current liquidity at the corporate level is ~\$3 billion
 - Issued ~\$300 million of subordinated perpetual notes with ~\$250 million of the proceeds used to redeem our Series 7 Preferred Units
 - Issued CAD \$400 million of 12-year notes and CAD \$200 million of 30-year notes in April
- Well-laddered debt profile with an average term to maturity of ~8 years with ~90%¹ of debt fixed rate and no significant maturities this year

Excludes (i) most revolving and capital expenditure facilities and (ii) BRL denominated financing given limited availability of fixed rate debt.

Our Business Brookfield

OUR MISSION

 To own and operate a globally diversified portfolio of high quality infrastructure assets that will generate sustainable and growing distributions over the long-term for our unitholders

PERFORMANCE TARGETS AND KEY MEASURES

- Target a 12% to 15% total annual return on invested capital measured over the long term
- Expect to generate returns from in-place cash flows plus growth through investments in upgrades and expansions of our asset base
- Growth in FFO per unit is one of the key performance metrics that we use to assess our ability to sustainably increase distributions in future periods

BASIS OF PRESENTATION

- Our consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB)
- For each operating segment, this Supplemental Information outlines Brookfield Infrastructure's proportionate share of results in order to demonstrate the impact of key value drivers of each operating segment on the partnership's overall performance

Our payout ratio is determined based on the amount of cash flow generated in our businesses that is available for distribution

- Objective is to pay a distribution that is sustainable on a long-term basis while retaining sufficient liquidity within operations to fund recurring growth capital expenditures and general corporate requirements
- We fund all of our growth initiatives through a combination of issuances of common equity, preferred equity and corporate debt, proceeds from asset sales and retained cash flows
 - Available funding and assessment of corporate liquidity is undertaken prior to committing to all new investments and capital projects
- Distributions are determined on the basis of the proportionate cash flow generating capacity of our businesses. We monitor proportionate cash flow from operations rather than focusing exclusively on its consolidated equivalent, since we exercise co-control or significant influence over decision-making with respect to distributions from our unconsolidated subsidiaries:
 - Each of our businesses is required to distribute all of its available cash (generally defined as cash on hand less any amounts reserved for committed growth projects)
 - Our governance arrangements over these businesses effectively provide us with a veto over any decision not to distribute all available cash flow. That is, any decision not to distribute available cash flow in these businesses requires our consent

Distribution Profile Brookfield

BIP has a conservative payout ratio underpinned by stable, highly regulated or contracted cash flows generated from operations

- We believe that a payout of 60-70% of FFO is appropriate
- Targeting 5% to 9% annual distribution growth, in light of expected per unit FFO growth
- Distribution payout is reviewed with the Board of Directors in the first quarter of each year
- The Board of Directors declared a quarterly distribution in the amount of \$0.54 per unit, payable on June 30, 2022 to unitholders of record as at the close of business on May 31, 2022. This quarterly distribution represents a 6% increase compared to the prior year
 - Distributions have grown at a compound annual growth rate of 9% over the last 10 years
- Below is a summary of our distribution history over the last 10 years

Over the last 10 years, the Partnership has been able to achieve its target payout ratio of 60-70% of funds from operations while increasing its distribution by an average of 9%

 Based on our distribution track record, the Partnership's average distribution payout ratio for the last 10 years is 70% of FFO, as shown below

Organic growth demonstrates our ability to deliver sustainable cash flow growth

- Our business is well-positioned to deliver per unit FFO organic growth of 6-9%
- The three principle drivers of recurring annual cash flow growth embedded in our businesses are:

In order to showcase the sustainability of our cash flow growth year-over-year, we calculate organic growth prior to fees and
corporate expenses and remove the following impacts: (i) contributions from acquisitions and dispositions completed in the last 12
months; (ii) impacts of foreign exchange since the previous period; and (iii) movements in results at our gas storage operations as
cash flows can be impacted by volatility caused by movements in spreads relating to natural gas prices.

Current environment is very supportive for organic growth at the high-end of our target range

- Current elevated inflation will benefit ~70% of FFO
- Continued GDP growth forecasted in many parts of the global economy could impact ~35% of our business
- Willingness of customers to expand existing operations is heightened during economic expansions which should lead to additional opportunities to grow our capital backlog

Our Operations Brookfield

- Own and operate a diversified portfolio of high-quality, long-life utilities, transport, midstream and data assets
- Generate stable cash flows with ~90% of revenue supported by regulated or long-term contracts
- Leverage Brookfield's best in-class operating segments to extract additional value from investments

OPERATING SEGMENTS

SEGMENT OVERVIEW

- Businesses that generate long-term returns on regulated or contractual asset base (rate base)
- Rate base increases with capital that we invest to upgrade and/or expand our systems
- Virtually all adjusted EBITDA is supported by regulated or contractual revenues

OBJECTIVES

- Invest capital to increase our rate base
- Earn an attractive return on rate base
- Provide safe and reliable service to our customers

OPERATIONS

- · Regulated Transmission:
 - ~4,200 km of natural gas pipelines in North America, South America and India
 - ~5,300 km of transmission lines in Brazil, of which ~4,300 km are operational
 - ~61,000 km of operational electricity distribution and transmission lines and ~12,000 km of gas pipelines in Australia
- Commercial & Residential Distribution:
 - Provides residential infrastructure services to ~1.9 million customers annually in the U.S., Canada, Germany and the U.K.
 - Over 360,000 long-term contracted submetering services within Canada
 - ~7.3 million connections, predominantly electricity and natural gas and ~1.2 million installed smart meters

The following table presents selected key performance metrics of our utilities segment:

- 1. Return on rate base is adjusted EBITDA divided by weighted average rate base
- 2. Return on rate base excludes impact of connections revenue, return of capital and IFRS 16 adjustments
- FFO of \$167 million in Q1'22 compared to \$166 million in the prior year
 - Same-store growth of 8% was driven by higher than historical inflation indexation which benefits ~90% of FFO and ~\$450 million of capital commissioned into rate base over the last 12 months
 - Current quarter results benefited from a partial contribution from our Australian regulated utility acquired in February 2022, and the additional 10% interest acquired in our Brazilian regulated gas transmission operation in April 2021
 - Prior year results included our U.K. smart meter portfolio and North American district energy platform, which were divested in 2021

FINANCIAL RESULTS

- Adjusted EBITDA and FFO were \$254 million and \$167 million, respectively, versus \$223 million and \$166 million, respectively, in the prior year
 - Commercial & Residential Distribution: Adjusted EBITDA and FFO benefited from inflation indexation, capital commissioned into rate base over the last 12 months, and higher connections activity at our U.K. regulated distribution business
 - Prior year results included our U.K. smart meter portfolio and North American district energy platform, which were divested in 2021
 - Regulated Transmission: Adjusted EBITDA benefited from a 18% annual inflationary tariff adjustment at our Brazilian regulated gas transmission operation and the acquisitions of an additional 10% interest in our Brazil regulated gas transmission operation and an Australian regulated utility
 - FFO was impacted by higher interest rates and cash taxes at our Brazilian regulated gas transmission operation

CAPITAL BACKLOG

Projects that we have been awarded and/or filed with regulators with anticipated commissioning into rate base in the next two to three years

- Ended the period with \$1.0 billion of total capital to be commissioned into rate base
 - New connection mandates awarded and the impact of acquisitions were partly offset by capital projects commissioned into rate base
- The largest contributors to capital expected to be commissioned into rate base include:
 - ~\$580 million at our U.K. regulated distribution business; and
 - ~\$200 million at our North American residential infrastructure business

RATE BASE

 Rate base increased compared to December 31, 2021 due to the acquisition of an Australian regulated utility, capital commissioned into rate base, inflation-indexation at our Brazilian regulated gas transmission business and the impact of foreign exchange

Transport Operations

SEGMENT OVERVIEW

- Provide transportation for freight, commodities and passengers
- Rail and toll road revenues are subject to regulatory price ceilings, while ports are primarily unregulated

OBJECTIVES

- · Increase throughput of existing assets
- Expand networks in a capital efficient manner to support incremental customer demand
- Provide safe and reliable service for our customers

OPERATIONS

- Rail
 - 116 short line freight railroads comprising over 22,000 km of track in North America and Europe
 - Sole provider of rail network in southern half of Western Australia with ~5,500 km of track and operator of ~4,800 km of rail in Brazil
- Toll Roads
 - ~3,800 km of motorways in Brazil, Peru and India
- Diversified Terminals
 - 13 terminals in North America, U.K., and Australia
 - ~30 million tonnes per annum LNG export terminal in the U.S. and ~85 million tonnes per annum export facility in Australia

The following table presents selected key performance metrics for our transport segment:

- 1. Adjusted EBITDA margin is adjusted EBITDA divided by revenues
- FFO of \$185 million in Q1'22 compared to \$162 million in the prior year, a 14% increase
 - Results benefited from inflationary tariff increases, strong performance at our U.S. LNG export terminal due to continued strength in LNG prices and the commissioning of a sixth liquefaction train, in addition to higher storage revenue at our North American and U.K. ports due to continued supply chain congestion

Total	\$ 255	\$	233	\$	185	\$	162

FINANCIAL RESULTS

- Adjusted EBITDA and FFO were \$255 million and \$185 million, respectively, versus \$233 million and \$162 million, respectively, in the prior year
 - Rail: Adjusted EBITDA and FFO benefited from an increase in tariffs across our portfolio, partially offset by softer volumes due to weather related delays in Australia and Brazil
 - Results were also impacted by lower rates on our Australian dollar hedge contracts
 - Toll Roads: Adjusted EBITDA and FFO benefited from a 3% overall increase in traffic volumes, as well as a 7% tariff increase at our Brazilian toll road
 - Prior year results included our Chilean toll road operation, which was divested in November 2021
 - Diversified Terminals: Adjusted EBITDA and FFO benefited from higher container storage charges due to congestion at our U.K. and North American port businesses and strong performance at our U.S. LNG export terminal from continued strength in LNG prices and the commissioning of a sixth liquefaction train

Capital Backlog

We expect enhancements to our networks over the next two to three years to expand capacity and support additional volumes, leading to cash flow growth over the long term

The following table presents our proportionate share of growth capital backlog:

US\$ MILLIONS, UNAUDITED	For the three-month period ended March 31, 2022	For the 12 month period ended December 31, 2021
Capital backlog, start of period	\$ 533 \$	421

Foreign exchange and other	35	(24)
Capital backlog, end of period	\$ 675 \$	533
Construction work in progress	285	421
Total capital to be commissioned	\$ 960 \$	954

- · Consists of the following types of projects:
 - Rail: Upgrading and expanding our network to capture volume growth from incremental activity in the sectors we serve (\$280 million)
 - Toll roads: Expanding the capacity of our roads by increasing and widening lanes on certain routes to support traffic growth (\$555 million)
 - Diversified Terminals: Increasing capacity of our terminals by deepening the berths and expanding, enhancing and modernizing our existing infrastructure (\$125 million)

Midstream Operations

SEGMENT OVERVIEW

- Systems that provide transmission and storage services
- Profitability based on the volume and price achieved for the provision of these services
- Businesses are either unregulated or subject to price ceilings

OBJECTIVES

- Satisfy customer growth requirements by increasing the utilization of our assets and expanding our capacity in a capital efficient manner
- Provide safe and reliable service to our customers

OPERATIONS

- Midstream:
 - ~15,000 km of natural gas transmission pipelines in the U.S.
 - ~600 billion cubic feet of natural gas storage in the U.S. and Canada
 - 17 natural gas and natural gas liquids processing plants with ~5.7 Bcf per day of total processing capacity and ~3,400 km of gas gathering pipelines in Canada
 - ~3,300 kilometers of long-haul pipelines and ~3,900 kilometers of conventional pipelines in Canada
 - Petrochemical complex in Canada

The following table presents selected key performance metrics for our midstream segment:

	Three Months E Marc				
US\$ MILLIONS, UNAUDITED	2022		2021		
Growth capital expenditures	\$ 80	\$	3		
Adjusted EBITDA margin ¹	55%		71%		
Funds from operations (FFO)	196		146		
Maintenance capital	(14)		(8)		
Adjusted funds from operations (AFFO)	\$ 182	\$	138		

- Adjusted EBITDA margin is adjusted EBITDA divided by revenues; 2021 EBITDA margin of 71% proforma exceptional gas storage results in the prior year (including the results margin was 79%)
 - FFO of \$196 million in Q1'22 compared to \$146 million in the prior year; after normalizing for record gas storage performance in the prior year, FFO was up \$115 million
 - Results benefited from the first full quarter contribution of Inter Pipeline, elevated commodity prices leading to increased utilization, and growth initiatives completed at our U.S. gas pipeline in March 2021
 - Prior year results included an additional 12.5% ownership in our U.S. gas pipeline which was divested in March 2021 and out performance at our gas storage operations driven by favorable market dynamics, which increased FFO by ~\$65 million in the prior year

Midstream Operations (cont'd)

FINANCIAL RESULTS

- Adjusted EBITDA and FFO were \$234 million and \$196 million, respectively, versus \$185 million and \$146 million, respectively, in the prior year
 - Adjusted EBITDA and FFO benefited from the acquisition of Inter Pipeline, elevated commodity prices and growth initiatives completed at our U.S. gas pipeline in March 2021
 - Prior year results included an additional 12.5% ownership in our U.S. gas pipeline which was divested in March 2021, as well as exceptional performance at our gas storage operations

Total capital to be commissioned \$	2,343	\$ 2,120

- Capital to be commissioned is primarily related to Inter Pipeline's Heartland facility, a state-of-the-art integrated petrochemical complex currently under construction in western Canada and expected to come online by the end of 2022
- Additional growth projects to our backlog that are expected to expand capacity across our Canadian midstream businesses

SEGMENT OVERVIEW

- Businesses that provide essential services and critical infrastructure to media broadcasting and telecom sectors
- Adjusted EBITDA underpinned by both regulated and unregulated services, secured by long-term inflation-linked contracts

OBJECTIVES

- Increase profitability through site rental revenue growth
- Maintain high level of service by managing availability and reliability of our customers network
- Deploy capital in response to customer demands for increased densification of their networks

OPERATIONS

- Data Transmission & Distribution:
 - ~152,000 operational telecom towers in India
 - ~8,000 towers and active rooftop sites in France
 - ~10,000 km of fiber located in France and Brazil
 - ~1,600 cell sites and over 12,000 km of fiber optic cable in New Zealand
 - ~2,100 active telecom towers and over 70 distributed antenna systems, primarily in the U.K.
- · Data Storage:
 - ~50 data centers, with ~1.4 million square feet of raised floors and ~200 megawatts of critical load capacity

The following table presents selected key performance metrics for our data segment:

		e Mon	nths Ended March 31	
US\$ MILLIONS, UNAUDITED		2022		2021

Funds from operations (FFO)		58		60
Maintenance capital		(9)		(10)
Adjusted funds from operations (AFFO)	\$	49	\$	50

- 1. Adjusted EBITDA margin is adjusted EBITDA divided by revenues
- FFO of \$58 million in Q1'22 compared to \$60 million in the prior year
 - Results on a constant currency basis benefited from strong underlying growth from additional points-of-presence and inflationary tariff escalators
 - Current quarter results were impacted by foreign exchange and customer churn at our U.S. data center business

Total	\$ 83	\$	82	\$	58	\$	60

FINANCIAL RESULTS

- Adjusted EBITDA and FFO were \$83 million and \$58 million, respectively, versus \$82 million and \$60 million, respectively, in the prior year
 - Data Transmission & Distribution: Adjusted EBITDA benefited from additional points-of-presence at our Indian telecom operation and our French telecom business
 - Added ~14,000 towers at our Indian telecom operation and ~350 points-of-presence at our French telecom business over the last 12 months
 - FFO was impacted by foreign exchange and higher borrowing costs
 - Data Storage: Adjusted EBITDA and FFO decreased as the contribution from 13 megawatts of capacity constructed at our South American data storage business over the last 12 months was more than offset by customer churn at our U.S. data center operation

Capital Backlog

Additions and improvements to our networks and sites over the next two or three years that are expected to accommodate growing data consumption, leading to cash flow growth over the long term

The following table presents our proportionate share of growth capital backlog:

US\$ MILLIONS, UNAUDITED	For the three-month period ended March 31, 2022	For the 12 month period ended December 31, 2021

Capital backlog, end of period	\$ 411 \$	394
Construction work in progress	107	100
Total capital to be commissioned	\$ 518 \$	494

- Capital to be commissioned includes ~\$375 million within our Data Transmission & Distribution operations and ~\$145 million at our Data Storage operations:
 - Data Transmission & Distribution: Includes ~\$165 million related to the build-out of additional contracted towers and new tenancies at our Indian telecom towers business, as well as ~\$170 million related to roll-out of our fiber-to-the-home program and additional pointsof-presence at our French telecom business
 - Data Storage: Increasing the capacity of our data storage network with the build-out of new sites or expansion of existing data centers
 - Total capital to be commissioned primarily relates to the construction of several new facilities at our South American and Australian operations, the majority of which are underpinned by attractive long-term contracts with investment grade, global hyperscale customers

Corporate

Funds from operations (FFO)	(113)	(103)
Deferred taxes and other items	(19)	74
Net loss	\$ (132) \$	(29)

FINANCIAL RESULTS

- General and administrative costs were relatively consistent with prior year
 - Anticipate corporate and administrative costs of ~\$12 million per year, excluding the base management fee
- We pay Brookfield an annual base management fee equal to 1.25% of our market value, plus recourse debt net of cash and financial assets
 - Base management fee increased over the prior year due to an increase in our unit price and a higher unit count
- Other income includes interest and dividend income, as well as realized gains or losses earned on corporate financial assets
- Corporate financing costs include interest expense and standby fees on our committed credit facility, less interest earned on cash balances
- Prior year deferred taxes and other includes the gain on sale of a 12.5% stake in our U.S. gas pipeline

Liquidity

Total liquidity was ~\$5.1 billion at March 31, 2022, comprised of the following:

US\$ MILLIONS, UNAUDITED	Proforma ¹	March 31, 2022 ²	Dec. 31, 2021

Liquidity presented on a proforma basis to reflect the maturity of our \$1 billion bulge temporary bulge facility on April 14, 2022, a \$500 million increase of our subordinated corporate credit facility in April 2022, ~\$475 million of medium term notes issued in April 2022, and \$220 million to fund the acquisition of Intellihub

- We maintain sufficient liquidity at all times to participate in attractive opportunities as they arise, withstand sudden adverse changes in economic circumstances and maintain our payout of FFO to unitholders
- Principal sources of liquidity are cash flows from operations, undrawn credit facilities, proceeds from capital recycling and access to public and private capital markets
- We may, from time to time, invest in financial assets comprised mainly of liquid equity and debt infrastructure securities in order to earn attractive short-term returns and for strategic purpose

^{2.} Includes a \$1,975 million committed corporate credit facility and a \$1 billion temporary bulge facility. As of March 31, 2022, our temporary bulge facility was undrawn, we had \$479 million drawn on our committed corporate credit facility and we had commercial paper outstanding of \$391 million

We finance our assets principally at the operating company level with debt that generally has long-term maturities, few restrictive covenants and no recourse to either Brookfield Infrastructure or our other operations.

We fund growth initiatives with proceeds from capital recycling, capital market issuances and retained operating cash flows

- We target retaining 15% of our operating cash flows (FFO) for the equity component of recurring growth capital expenditures
- We look to fund new investment opportunities and large-scale growth capital expenditure projects with proceeds from capital recycling and capital market issuances

Over the last three years, we have deployed over \$7.0 billion in acquisitions and organic growth initiatives, all which has been funded through our capital recycling program and capital market issuances

Foreign Currency Hedging Strategy

To the extent that it is economic to do so, we hedge a portion of our equity investments and/or cash flows exposed to foreign currencies. The following principles form the basis of our foreign currency hedging strategy:

- · We leverage any natural hedges that may exist within our operations
- We utilize local currency debt financing to the extent possible
- We may utilize derivative contracts to the extent that natural hedges are insufficient

The following table presents our hedged position in foreign currencies as at March 31, 2022:

- As at March 31, 2022, 67% of overall net equity is USD functional
- We have implemented a strategy to hedge all of our expected FFO generated in AUD, GBP, EUR, CAD, INR, CLP, COP, PEN and NZD
 for the next 24 months
- For the three months ended March 31, 2022, 27%, 20%, 17%, 12%, 12% and 12% of our pre-corporate FFO was generated in CAD, USD, BRL, AUD, GBP, and other, respectively
- Due to our FFO hedging program ~85% of our pre-corporate FFO is effectively generated in USD and the balance in BRL

- Funds from operations (FFO), adjusted funds from operations (AFFO), adjusted EBITDA, adjusted earnings, invested capital and their per share equivalents, where applicable, are non-IFRS measures which do not have any standard meaning prescribed by IFRS and therefore may not be comparable to similar measures presented by other companies
 - FFO, Adjusted EBITDA, Adjusted Earnings and AFFO include balances attributable to the Partnership generated by investments in associates and joint ventures accounted for using the equity method and excludes amounts attributable to noncontrolling interests based on the economic interests held by non-controlling interests in consolidated subsidiaries.
 - FFO, AFFO, adjusted earnings and invested capital are reconciled to Net Income and Partnership capital, respectively, the closest measures determined under IFRS on pages 35, 36 and 40, respectively
- FFO is defined as net income excluding the impact of depreciation and amortization, deferred income taxes, mark-to-market on hedging items and other income (expenses) that are not related to the revenue earning activities and are not normal, recurring cash operating expenses necessary for business operations
 - Brookfield Infrastructure uses FFO to assess its operating results
- Adjusted EBITDA is defined as as net income excluding the impact of interest expense, depreciation and amortization, income
 taxes, mark-to-market on hedging items and other income (expenses) corresponding to amounts that are not related to the revenue
 earning activities and are not normal, recurring cash operating expenses necessary for business operations
 - Brookfield Infrastructure uses Adjusted EBITDA as a measure of operating performance
- Adjusted Earnings is defined as net income attributable to our partnership, excluding the following:
 - Incremental depreciation and amortization expense attributable to purchase price accounting and in accordance with our partnership's accounting policy to measure property, plant and equipment using the revaluation method
 - Mark-to-market on hedging items and other income (expenses) corresponding to amounts that are not related to the revenue earning activities and are not normal, recurring expenses necessary for business operations
 - Gains on the disposition of subsidiaries, associates and joint ventures
- AFFO is a measure of our long-term sustainable performance and is calculated as FFO less capital expenditures required to maintain the current performance of our operations (maintenance capital expenditures)
- Invested capital tracks the amount of capital that has been contributed to our partnership and is a measure we utilize to assess returns on capital deployed, relative to targeted returns
