Q4 SUPPLEMENTAL INFORMATION

FOURTH QUARTER AND FULL YEAR, DECEMBER 31, 2024

Cautionary Statement Regarding Forward-Looking Statements

This Supplemental Information contains forward-looking information within the meaning of Canadian provincial securities laws and “forward-looking statements” within the meaning of certain securities laws including Section 27A of the U.S. Securities Act of 1933, as amended, Section 21E of the U.S. Securities Exchange Act of 1934, as amended, “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995 and in any applicable Canadian securities regulations. The words “expect”, “target”, “believe”, “objective”, “anticipate”, “plan”, “estimate”, “growth”, “increase”, “return”, “expand”, “maintain”, derivatives thereof and other expressions of similar import, or the negative variations thereof, and similar expressions of future or conditional verbs such as “will”, “may”, “should”, “could”, “backlog”, “potential”, “believe”, “increase”, “intend”, or derivations thereof which are predictions of or indicate future events, trends or prospects and which do not relate to historical matters, identify forward-looking statements and information. Forward-looking statements and information in this Supplemental Information include among others, statements with respect to our cash flows, participation in a growing asset class, assets tending to appreciate in value over time, current and proposed growth initiatives in our assets and operations, increases in FFO per unit and resulting capital appreciation, returns on capital and on equity, increasing demand for commodities and global movement of goods, volume increases in the businesses in which we operate, expected capital expenditures, the impact of planned capital projects by customers of our businesses, the extent of our corporate, general and administrative expenses, our ability to close acquisitions and the expected timing thereof, our capacity to take advantage of opportunities in the marketplace, the future prospects of the assets that Brookfield Infrastructure operates or will operate, ability to identify, acquire and integrate new acquisition opportunities, long-term targeted returns on our assets, sustainability of distribution levels, the level of distribution growth and payout ratios over the next several years and our expectations regarding returns to our unitholders as a result of such growth, operating results and margins for our business and each of our operations, future prospects for the markets for our products, Brookfield Infrastructure’s plans for growth through internal growth and capital investments, ability to achieve stated objectives, ability to drive operating efficiencies, return on capital expectations for the business, contract prices and regulated rates for our operations, our expected future maintenance and capital expenditures, commissioning of capital from our backlog, ability to deploy capital in accretive investments, impact on the business resulting from our view of future economic conditions, our ability to maintain sufficient financial liquidity, our ability to draw down funds under our bank credit facilities, our ability to secure financing through the issuance of equity or debt, expansions of existing operations, financing plans for operating companies, foreign currency management activities and other statements with respect to our beliefs, outlooks, plans, expectations and intentions. Although we believe that Brookfield Infrastructure’s anticipated future results, performance or achievements expressed or implied by the forward-looking statements and information are based upon reasonable assumptions and expectations, the reader should not place undue reliance on them. The future performance and prospects of Brookfield Infrastructure involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Brookfield Infrastructure to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements and information.

Factors that could cause actual results of Brookfield Infrastructure to differ materially from those contemplated or implied by the statements in this presentation include general economic and market conditions in the jurisdictions in which we operate (including that management’s expectations may differ from actual economic and market trends), regulatory developments and changes in inflation rates in the U.S. and elsewhere, the impact of market conditions on our business, the fact that success of Brookfield Infrastructure is dependent on market demand for an infrastructure company, which is unknown, the availability of and our ability to obtain equity and debt financing and the terms thereof, foreign currency risk, the outcome and timing of various regulatory, legal and contractual issues, global credit and financial markets, the competitive business environment in the industries in which we operate, the competitive market for acquisitions and other growth opportunities, our ability to satisfy conditions precedent required to complete, our ability to integrate acquisitions into existing operations and the future performance of those acquisitions, our ability to close planned transactions, our ability to complete large capital expansion projects on time and within budget, favorable commodity prices, our ability to achieve the milestones necessary to deliver the targeted returns to our unitholders, weakening demand for products and services in the markets for the commodities that underpin demand for our infrastructure, ability to negotiate favorable take-or-pay contractual terms, the continued operation of large capital projects by customers of our businesses which themselves rely on access to capital and continued favorable commodity prices, changes in technology which have the potential to disrupt business and industries in which we invest, uncertainty with respect to future sources of investment opportunities, traffic on our toll roads and other risks and factors described in the documents filed by Brookfield Infrastructure Partners L.P. with the securities regulators in Canada and the United States including under “Risk Factors” in its most recent Annual Report on Form 20-F.

We caution that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to Brookfield Infrastructure, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Except as required by law, Brookfield Infrastructure undertakes no obligation to publicly update or revise any forward-looking statements or information, whether written or oral, that may be as a result of new information, future events or otherwise.

Cautionary Statement Regarding Use of Non-IFRS, Accounting Measures

Although our financial results are determined in accordance with International Financial Reporting Standards (IFRS), the basis of presentation throughout much of this report differs from IFRS in that it is organized by business segment and utilizes, funds from operations (FFO), Adjusted funds from operations (AFFO), Adjusted EBITDA and invested capital as important measures. This is reflective of how we manage the business and, in our opinion, enables the reader to better understand our affairs. We provide a reconciliation to the most directly comparable IFRS measure on pages 40-51 of this Supplemental Information. Readers are encouraged to consider both measures in assessing Brookfield Infrastructure’s results.

Business Environment and Risks

Brookfield Infrastructure’s financial results are impacted by various factors, including the performance of each of our operations and various external factors influencing the specific segments and geographic locations in which we operate; macro-economic factors such as economic growth, changes in currency, inflation and interest rates; regulatory requirements and initiatives; and litigation and claims that arise in the normal course of business. These and other factors are described in Brookfield Infrastructure’s most recent Annual Report on Form 20-F which is available on our website at www.brookfieldinfrastructure.com and at www.sec.gov/edgar.shtml and www.sedar.com.

Performance Highlights

- FFO of \$2.5 billion for the year represents an increase of 8% over the prior year
 - Organic growth was 7% capturing annual inflationary rate increases, volume growth across our critical infrastructure networks, higher utilization in our midstream segment and earnings from capital commissioned over the last 12 months
 - A net positive contribution from our asset rotation program (most notably from the acquisition of Triton, a global intermodal logistics operation), which was partially offset by capital recycling initiatives
 - Results were partially offset by higher borrowing costs and foreign exchange, most notably the depreciation of the Brazilian real
- Total distributions paid in 2024 of \$1.62 per unit represent an increase of 6% over the prior year
- Payout ratio of 67% for the year falls within our long-term 60-70% target range
- Current year income benefited from strong operational performance, gains on revaluation of our investment properties and mark-to-market gains on hedging activities while prior year results included gains from our capital recycling program
- Total assets increased compared to December 31, 2023 primarily due to the acquisition of a North American retail colocation data center business and a follow-on acquisition at our Indian telecom tower operation

2024 Highlights (cont'd)

Operations

- Deployed ~\$2.2 billion of growth capital expenditures to increase rate base at our utility operations, and expand capacity at our transport, midstream and data businesses
- Across our global residential infrastructure businesses:
 - Signed over 20 tuck-in acquisitions at our European residential decarbonization infrastructure business, to help support the build out of our HVAC installation and rental business
 - At our U.K. regulated distribution business, secured two inaugural Ground Sourced Heat Pump (GSHP) sales totaling over 1,500 connections, contributing to the diversification of our utility mix
- Operationalized 1,200 kilometers at our Brazilian electricity transmission operation and exercised our option to acquire our construction partners 50% stake in a concession of transmission lines spanning 842 kilometers for R\$440 million, which was entirely debt financed
- Transport operations performed well with increased volumes and realized average rate increases of 7% across our rail networks and 6% across our toll road portfolio
- Within our midstream operations, progressed the following commercial agreements during the year:
 - Entered into nine new firm processing agreements at our Western Canadian midstream operation, expected to contribute ~C\$160 million of annual revenue
 - At our North American gas storage operation, signed multiple new contracts at record high rates, expected to contribute ~\$190 million of annual EBITDA
- Commissioned ~255 megawatts of contracted hyperscale capacity during the last twelve months, with total critical load capacity of ~1 gigawatt across our global portfolio

Strategic Initiatives

- Deployed over \$1.1 billion of equity into growth across our backlog of organic growth projects, as well as three tuck-in acquisitions
 - Acquired a portfolio of data centers out of bankruptcy from Cyxtera in Q1 2024, with no new equity required
 - Acquired an additional 10% interest in our Brazilian rail network in Q2 2024, for total equity consideration of ~\$365 million
 - Completed a tuck-in acquisition of 76,000 telecom tower sites in India in Q3 2024, for total equity consideration of ~\$150 million

Financing and Liquidity

- Current liquidity of \$5.5 billion; including ~\$2.3 billion of corporate liquidity and over \$1.5 billion of cash across our businesses
- Achieved our target of \$2 billion of capital recycling proceeds for the year
 - Most recently, closed the sale of our fiber platform within our French telecom infrastructure business for net proceeds of ~\$100 million
- Secured an additional ~\$200 million in capital recycling proceeds
 - Agreed to sell a 33% interest in a portfolio of contracted and stabilized containers at our global intermodal logistics operation, for net proceeds of ~\$440 million (BIP's share - over \$120 million)
 - Agreed to sell a non-core site at our North American hyperscale data center platform, for net proceeds of ~\$400 million (BIP's share - over \$60 million)
- Well-laddered debt profile with an average term to maturity of ~8 years with ~90%¹ of debt fixed rate and no significant maturities over the next 12 months

1. Excludes (i) most revolving and capital expenditure facilities and (ii) BRL denominated financing given limited availability of fixed rate debt

Our Business

Our Mission

- To own and operate a globally diversified portfolio of high quality infrastructure assets that will generate sustainable and growing distributions over the long-term for our unitholders

Performance Targets and Measures

- Target a 12% to 15% total annual return on invested capital measured over the long term
- Expect to generate returns from in-place cash flows plus growth through investments in upgrades and expansions of our asset base
- Growth in FFO per unit is one of the key performance metrics that we use to assess our ability to sustainably increase distributions in future periods

Basis of Presentation

- Our consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB)
- For each operating segment, this Supplemental Information outlines Brookfield Infrastructure's proportionate share of results in order to demonstrate the impact of key value drivers of each operating segment on the partnership's overall performance

Distribution Profile

BIP has a conservative payout ratio underpinned by stable, highly regulated or contracted cash flows generated from operations

- We believe that a payout off 60-70% of FFO is appropriate
- Targeting 5% to 9% annual distribution growth, in light of expected per unit FFO growth
- Distribution payout is reviewed with the Board of Directors in the first quarter of each year
- The Board of Directors declared a quarterly distribution in the amount of \$0.43 per unit, payable on March 31, 2025 to unitholders of record as at the close of business on February 28, 2025. This quarterly distribution represents a 6% increase compared to the prior year
- Distributions have grown at a **compound annual growth rate of 7%** over the last 10 years
- Below is a summary of our distribution history over the last 10 years¹

1. Annual distribution amounts have been adjusted for the 3-for-2 stock split effective September 14, 2016, the special distribution of BIPC shares effective March 31, 2020, and the 3-for-2 stock split effective June 10, 2022

Distribution Payout Ratio

Over the last 10 years, BIP has been able to achieve its target payout ratio of 60-70% of funds from operations while increasing its distribution by an average of 7%

- Objective is to pay a distribution that is sustainable on a long-term basis while retaining sufficient liquidity within our operations to fund recurring growth capital expenditures and general corporate requirements
- We fund all of our growth initiatives through a combination of issuances of common equity, preferred equity, corporate debt, proceeds from asset sales and retained internally generated cash flow
 - Available funding and assessment of corporate liquidity is undertaken prior to committing to all new investments and capital projects
- Based on our distribution track record, the Partnership's average distribution payout ratio for the last 10 years is 70% of FFO, as shown below

1. Preferred unit distributions in 2022, 2023 and 2024 include perpetual subordinated notes

2. FFO payout ratio is calculated by dividing total distributions paid to all shareholders by FFO, while the AFFO payout ratio is similar but deducts maintenance capital from FFO

Organic Growth within our Business

Organic growth demonstrates our ability to deliver sustainable cash flow growth

- Our business is well-positioned to deliver per unit FFO organic growth of 6 - 9%, the three principle drivers of recurring annual cash flow growth embedded in our businesses are:

- In order to showcase the sustainability of our cash flow growth year-over-year, we calculate organic growth prior to fees and corporate expenses and remove the following impacts: i) contributions from acquisitions and dispositions completed in the last 12 months; ii) impacts of foreign exchange since the previous period; and iii) movements in results at our midstream operations that are impacted by volatility caused by commodity prices

1. Represents weighted average inflation during 2024 in the main countries we operate in

Our Operations

- Own and operate a diversified portfolio of high-quality, long-life utilities, transport, midstream and data assets
- Generate stable cash flows with ~90% of FFO supported by regulated or long-term contracted revenues

Operating Segments

Utilities Operations

Segment Overview

- Businesses that generate long-term returns on regulated or contractual asset base (rate base)
- Rate base increases with capital that we invest to upgrade and/or expand our systems
- Virtually all adjusted EBITDA are supported by regulated or contractual revenues

Objectives

- Invest capital to increase our rate base
- Earn an attractive return on rate base
- Provide safe and reliable service to our customers

Operations

- Regulated Transmission:
 - ~2,900 km of operational transmission lines in Brazil
 - ~3,900 km of natural gas pipelines in North America, Brazil and India
- Commercial & Residential Distribution:
 - ~8.4 million connections, predominantly electricity and natural gas
 - Provides residential decarbonization infrastructure services, as well as other essential home services and policies to ~10.4 million customers with ~17.2 million policies and ~1.7 million rental contracts in Canada, the United States, Germany and the U.K.
 - Over 0.7 million long-term contracted sub-metering services within Canada and the United States
 - ~2.8 million meters under management in Australia and New Zealand

The following table presents selected key performance metrics of our utilities segment:

Maintenance capital	(84)	(88)
Adjusted funds from operations (AFFO)	\$ 676	\$ 791
Return on rate base ^{1,2}	12%	12%

1. Return on rate base is Adjusted EBITDA divided by weighted average rate base

2. Return on rate base excludes impact of EBITDA earned from our home services policies, connections revenue, return of capital and IFRS 16 adjustments

- Adjusted EBITDA and FFO were \$1,252 million and \$760 million in 2024 compared to \$1,327 million and \$879 million in 2023
 - Results benefited from strong organic growth due to the continued benefit of inflation indexation and the contribution associated with over \$450 million of capital commissioned into the rate base over the last 12 months
 - Results were impacted by the depreciation of the Brazilian real and from lower rates on foreign exchange hedge contracts
 - FFO was further impacted by higher borrowing costs associated with funding growth projects and upfinancings completed at two regulated transmission businesses
 - Prior year results included earnings from an Australian regulated utility divested in Q3 2023

Total	\$ 1,252	\$ 1,327	\$	760	\$ 879

Financial Results

- Adjusted EBITDA and FFO were \$1,252 million and \$760 million, respectively, versus \$1,327 million and \$879 million, respectively, in the prior year
- Commercial & Residential Distribution: Results benefited from inflation indexation, growth in the customer base at our U.K. regulated distribution business, and capital commissioned into rate base over the last 12 months
 - Results were impacted by lower rates on our foreign exchange hedge contracts (FFO was further impacted by higher borrowing costs to fund ongoing capital projects)
- Regulated Transmission: Adjusted EBITDA and FFO decreased from the prior year due to the sale of an Australian regulated utility in Q3 2023
 - The base business benefited from higher tariffs and the commissioning of our largest concession at our Brazilian electricity transmission operation
 - Results were impacted by the depreciation of the Brazilian real (FFO was further impacted by higher borrowing costs from upfinancings completed at our regulated pipelines in Brazil and Mexico)

1. Rate base excludes our North American and European residential warranty businesses

Capital Backlog

Projects that we have been awarded and/or filed with regulators with anticipated commissioning into rate base in the next two to three years

- Ended the period with ~\$1.0 billion of total capital to be commissioned into rate base
 - New connection mandates awarded were offset by capital projects commissioned into rate base
- The largest contributor to capital expected to be commissioned into rate base is our U.K. regulated distribution business (~\$700 million)

Rate Base¹

- Rate base decreased compared to December 31, 2023
 - Rate base benefited from new connections at our U.K. regulated distribution business and our residential infrastructure platform (long-term rental contracts secured and inflation indexation)
 - Rate base also benefited from the acquisition of our construction partner's 50% ownership of 842 km operational electricity transmission lines in Brazil
 - The increase in rate base was more than offset by the impact of foreign exchange (most notably the Brazilian real) and by deflation (indexed to IGP-M) at our Brazilian regulated gas transmission operation

Transport Operations

Segment Overview

- Provide transportation for freight, commodities and passengers
- Rail and toll road revenues are subject to regulatory price ceilings, while ports are primarily unregulated

Objectives

- Increase throughput of existing assets
- Expand networks in a capital efficient manner to support incremental customer demand
- Provide safe and reliable service for our customers

Operations

- Diversified Terminals
 - Global fleet of ~7 million twenty-foot equivalent unit (TEU) intermodal containers
 - ~30 million tonnes per annum liquefied natural gas (LNG) export terminal in the United States
 - An ~85 million tonnes per annum export facility in Australia
 - 10 terminals in the U.K., and Australia facilitating global trade of goods, natural resources and commodities
- Rail
 - 113 short line freight railroads comprising ~21,000 km of track in North America and Europe
 - Sole provider of rail network in the southern half of Western Australia with ~5,500 km of track and operator of ~9,800 km of rail in Brazil, of which 8,000 km are owned
- Toll Roads
 - ~3,300 km of motorways in Brazil and Peru

The following table presents selected key performance metrics for our transport segment:

Twelve Months Ended December 31			
US\$ Millions, unaudited	2024		2023

Funds from operations (FFO)	\$	1,224	\$ 888
Maintenance capital		(328)	(179)
Adjusted funds from operations (AFFO)	\$	896	\$ 709

1. Adjusted EBITDA margin is Adjusted EBITDA divided by revenues; Prior year EBITDA margin has been adjusted to present revenues on a net basis

- FFO was \$1,224 million in 2024 compared to \$888 million in 2023, representing a 38% increase
 - Organic growth was driven by higher volumes across the segment and average rate increases of 7% across our rail networks and 6% across our toll road portfolio
 - Current year results reflect full year contribution from the acquisition of Triton, a global intermodal logistics operation, in Q3 2023, and the contribution from an additional 10% interest in our Brazilian rail network
- Maintenance capex increased over prior year due to the timing of fleet replacement at our global intermodal logistics operation and an additional 10% interest in our Brazilian rail network

Total	\$ 1,646	\$ 1,235	\$ 1,224	\$ 888

Financial Results

- Adjusted EBITDA and FFO were \$1,646 million and \$1,224 million, respectively, versus \$1,235 million and \$888 million, respectively, in the prior year
 - Diversified Terminals: Adjusted EBITDA and FFO benefited from inflationary increases and higher volumes over the prior year
 - Current year results reflect full year contribution from the acquisition of our global intermodal logistics operation in Q3 2023
 - Rail: Adjusted EBITDA and FFO benefited from inflationary tariff increases of 7%
 - Current year results also reflect contribution from an additional 10% interest in our Brazilian rail network
 - Toll Roads: Adjusted EBITDA and FFO benefited from inflationary tariff increases of 6% and an 8% increase in traffic volumes across our portfolio
 - Results were impacted by the depreciation of the Brazilian real
 - Prior year results included contribution from our Indian toll road operation, which was divested in Q2 2023

Capital Backlog

We expect enhancements to our networks over the next two to three years to expand capacity and support additional volumes, leading to cash flow growth over the long term

The following table presents our share of growth capital backlog:

		For the Twelve Month Period Ended December 31	
US\$ Millions, unaudited		2024	2023
Capital backlog, start of period	\$	714	\$ 603

Capital backlog, end of period	\$	461	\$ 714
Construction work in progress		193	445
Total capital to be commissioned	\$	654	\$ 1,159

- Consists of the following types of projects:
 - Diversified Terminals: Increasing capacity of our terminals by deepening the berths and expanding, enhancing and modernizing our existing infrastructure (~\$195 million)
 - Rail: Upgrading and expanding our network to capture volume growth from incremental activity in the sectors we serve (~\$330 million)
 - Toll Roads: Expanding the capacity of our roads by increasing and widening lanes on certain routes to support traffic growth (~\$130 million)
 - Commissioned one of the largest road infrastructure projects at our Brazilian toll road business in Q3 2024, representing a 50 km road network, designed to de-bottleneck traffic in one of the main export routes in Brazil

Midstream Operations

Segment Overview

- Systems that provide transmission, gathering and processing, and storage services
- Profitability based on the volume and price achieved for the provision of these services
- Businesses are either unregulated or subject to price ceilings

Objectives

- Satisfy customer growth requirements by increasing the utilization of our assets and expanding our capacity in a capital efficient manner
- Provide safe and reliable service to our customers
- Generate attractive cash yield to accelerate return on and of capital

Operations

- Midstream:
 - ~15,000 km of natural gas transmission pipelines in the United States
 - ~10,600 kilometers of pipelines which include long-haul, conventional and natural gas gathering pipelines in Canada
 - 16 natural gas and natural gas liquids processing facilities with ~5.6 billion cubic feet (Bcf) per day of gross processing capacity in Canada
 - ~570 Bcf of natural gas storage in the United States and Canada
 - 525,000 tonnes per year of polypropylene production capacity in Canada

The following tables present selected key performance metrics for our midstream segment and our share of financial results:

Twelve Months Ended December 31			
US\$ Millions, unaudited	2024		2023

Net income	\$	87	\$ 209

- Adjusted EBITDA and FFO were \$974 million and \$625 million in 2024 compared to \$995 million and \$684 million in 2023
 - Adjusted EBITDA and FFO benefited from higher contracted and market sensitive revenues across our midstream operations, offset by the impact of lower rates on our foreign exchange hedge contracts
 - FFO was further impacted by higher borrowing costs from upfinancings completed at our U.S. gas pipeline and our North American gas storage operation
 - Prior year results included contribution from our U.S. gas pipeline which was partially divested in Q2 2023

Capital Backlog

Enhancements to our systems over the next two to three years that are expected to expand capacity to support additional volumes, leading to cash flow growth over the long term

The following table presents our share of growth capital backlog:

		For the Twelve Month Period Ended December 31	
US\$ Millions, unaudited		2024	2023

Capital backlog, end of period	\$	230	\$ 270
Construction work in progress		142	74
Total capital to be commissioned	\$	372	\$ 344

- New capital projects relate to capacity expansion across our midstream operations, new projects include:
 - Expanding our Western Canadian natural gas gathering and processing operation to enhance the liquids extraction capabilities at its largest facility, increasing processing capacity by ~8%
 - Adding an incremental 10 Bcf at a Gulf Coast storage capacity at our U.S. gas pipeline, in response to increased customer demand and a shortage of critical natural gas infrastructure

Data Operations

Segment Overview

- Businesses that provide critical infrastructure and essential services to telecom companies, technology and cloud computing providers, and enterprise clients
- Adjusted EBITDA underpinned by both regulated and unregulated services, secured by long-term inflation-linked contracts

Objectives

- Increase profitability through site rental revenue growth
- Maintain high level of service by managing availability and reliability of our customers network
- Deploy capital in response to customer demands for increased densification of their networks

Operations

- Data Transmission & Distribution:
 - ~306,000 operational telecom towers in India, France, Germany, Austria and the U.K.
 - ~28,000 km of fiber optic cable located in Australia, Brazil and the United States
 - Over 70 distributed antenna systems in the U.K.
 - ~360,000 fiber-to-the-premise connections in Australia and the United States
 - 2 semiconductor manufacturing foundries in the United States
- Data Storage:
 - Over 140 data centers with ~1 gigawatt of critical load capacity, and an additional ~640 megawatts of contracted capacity

The following table presents selected key performance metrics for our data segment:

Twelve Months Ended December 31			
US\$ Millions, unaudited	2024		2023
Growth capital expenditures	\$	1,187	\$ 824

Maintenance capital		(32)	(31)
Adjusted funds from operations (AFFO)	\$	301	\$ 244

1. Adjusted EBITDA margin is Adjusted EBITDA divided by revenues; Prior year EBITDA margin has been adjusted to present revenues on a net basis

- FFO was \$333 million in 2024 compared to \$275 million in 2023, representing a 21% increase
 - Results benefited from additional points-of-presence at our tower and fiber operations and the commissioning of additional megawatts across our global data storage platform
 - Current year results reflect contributions from our acquisitions of: (i) a portfolio of 76,000 telecom tower sites in India in Q3 2024, (ii) a North American retail colocation data center business in Q1 2024 and (iii) hyperscale data center platforms in Europe and the United States in Q3 2023 and Q4 2023, respectively
 - Prior year results reflect contribution from a New Zealand integrated data distribution business, which we sold in Q2 2023

Data Storage	215	60	96	33	
Total	\$ 597	\$ 447	\$ 333	\$ 275	

Financial Results

- Adjusted EBITDA and FFO were \$597 million and \$333 million, respectively, versus \$447 million and \$275 million, respectively, in the prior year
- Data Transmission & Distribution: Adjusted EBITDA and FFO benefited from additional points-of-presence across our portfolio, offset by lower rates on foreign exchange hedge contracts
 - Current year results reflect earnings from the tuck-in acquisition of 76,000 telecom tower sites in India, partially offset by the lost contribution from our New Zealand data distribution business divested in Q2 2023
- Data Storage: Results benefited from the acquisition of a North American retail colocation data center business in Q1 2024, and the acquisitions of hyperscale data center platforms in Europe and the United States in Q3 and Q4 2023, respectively

Capital Backlog

Additions and improvements to our networks and sites over the next two or three years that are expected to accommodate growing data consumption, leading to cash flow growth over the long term

The following table presents our share of growth capital backlog:

		For the Twelve Month Period Ended December 31	
US\$ Millions, unaudited		2024	2023
Capital backlog, start of period	\$	4,104	\$ 3,756

Capital backlog, end of period		3,888	4,104
Construction work in progress		1,829	1,000
Total capital to be commissioned	\$	5,717	\$ 5,104

- Capital to be commissioned includes ~\$4.2 billion within our Data Transmission & Distribution operations and ~\$1.5 billion at our Data Storage operations:
 - Data Transmission & Distribution:
 - ~\$3.9 billion from our partnership with Intel to build two semiconductor foundries in the United States (~\$500 million spent in 2024 and ~\$1.2 billion spent to date)¹
 - ~\$180 million related to the build-out of additional sites and new tenancies at our telecom towers operations
 - ~\$130 million for additional connections across our global fiber operations
 - Data Storage: Increasing the capacity of our data storage network with the build-out of new sites or expansion of existing data centers
 - Total capital to be commissioned primarily relates to the construction of several new facilities at our global data center operations, the majority of which are underpinned by attractive long-term contracts with investment grade, global hyperscale customers
 - ~\$1.2 billion in backlog and work in progress at our hyperscale data center platforms primarily in Europe and the United States

1. Prior year Intel backlog figures increased by \$275 million to reflect BIP's final ownership interest in Brookfield Infrastructure Fund V (25.5%)

Corporate

The following table presents the components of corporate on a proportionate basis:

	Twelve Months Ended December 31	
US\$ Millions, unaudited	2024	2023
General and administrative costs	\$ (12)	\$ (12)
Base management fee	(393)	(401)

Funds from operations (FFO)	(474)	(438)
Deferred taxes and other items	(117)	(305)
Net loss	\$ (591)	\$ (743)

Financial Results

- General and administrative costs were consistent with prior year
 - Corporate and administrative costs were ~\$12 million, excluding the base management fee
- We pay Brookfield an annual base management fee equal to 1.25% of our market value, plus recourse debt net of cash and financial assets
- Other income includes interest and dividend income, as well as realized gains or losses earned on corporate financial assets
- Financing costs include interest expense and standby fees on our committed credit facility, less interest earned on cash balances
 - Increase in financing costs associated with the funding of new investments and outsized capital backlog completed during the year

Liquidity

Total liquidity was \$5.5 billion at December 31, 2024, of which ~\$2.3 billion is at the corporate level, comprised of the following:

US\$ Millions, unaudited	December 31, 2024	December 31, 2023
Corporate cash and financial assets	\$ 276	\$ 812
Committed corporate credit facility	2,225	2,175
Subordinated corporate credit facility	1,000	1,000
Draws under corporate credit facility	(300)	(222)
Commitments under corporate credit facility	(10)	(8)

Proportionate cash retained in businesses	1,525	984
Proportionate availability under subsidiary credit facilities	1,617	1,459
Total liquidity	\$ 5,483	\$ 5,211

- We maintain sufficient liquidity at all times to participate in attractive opportunities as they arise, withstand sudden adverse changes in economic circumstances, and maintain a relatively high payout of our FFO to unitholders
- Principal sources of liquidity are cash flows from operations, undrawn credit facilities, proceeds from capital recycling, and access to public and private capital markets
- We may, from time to time, invest in financial assets comprised mainly of liquid equity and debt infrastructure securities in order to earn attractive short-term returns and for strategic purpose

Maturity Profile

- We finance our assets principally at the operating company level with debt that generally has long-term maturities, few restrictive covenants and no recourse to either Brookfield Infrastructure or our other operations.
- On a proportionate basis as of December 31, 2024, scheduled principal repayments over the next five years are as follows:

Foreign Currency Hedging Strategy

To the extent that it is economic to do so, we hedge a portion of our equity investments and/or cash flows exposed to foreign currencies. The following principles form the basis of our foreign currency hedging strategy:

- We leverage any natural hedges that may exist within our operations
- We utilize local currency debt financing to the extent possible
- We may utilize derivative contracts to the extent that natural hedges are insufficient

The following table presents our hedged position in foreign currencies as at December 31, 2024:

		Foreign Currency Hedges							
US\$ Millions, unaudited		USD ¹	GBP	EUR	AUD	BRL	CAD ²	INR	Other

2. CAD net equity investment excludes \$529 million of preferred units and preferred shares

3. Includes medium-term notes, draws on our revolving credit facility, commercial paper issuances and working capital at the corporate level

- As at December 31, 2024, 76% of overall net equity is USD functional
- We have implemented a strategy to hedge all of our expected FFO generated in GBP, EUR, AUD, CAD, and INR for the next 24 months
- For the 12 months ended December 31, 2024, 32%, 18%, 18%, 12%, 10% and 10% of our pre-corporate FFO was generated in USD, CAD, BRL, GBP, AUD and other, respectively
- Due to our FFO hedging program ~80% of our pre-corporate FFO is effectively generated in USD and the balance in BRL

1. Proceeds from capital recycling exclude the upfinancings at our U.S. gas pipeline and our Mexican regulated natural gas transmission business, which occurred in Q4 2023
2. New and follow-on investments for the twelve months ended December 31, 2024 includes a North American data center platform acquired in Q4 2023 but funded in January 2024

- Financing plan: We fund recurring growth capital expenditures with cash flow generated by operations, as well as debt financing that is sized to maintain credit profile
- To fund large-scale development projects and acquisitions, we will evaluate a number of capital sources including proceeds from the sale of non-core assets as well as equity and debt financings

Capital Reinvestment (cont'd)

We fund growth initiatives with proceeds from capital recycling, capital market issuances and retained operating cash flows

- We target retaining 15% of our operating cash flows (FFO) for the equity component of recurring growth capital expenditures
- We look to fund new investment opportunities and large-scale growth capital expenditure projects with proceeds from capital recycling and capital market issuances

Over the last five years, we have deployed ~\$12 billion in acquisitions and organic growth initiatives, which has been funded through our capital recycling program, capital market issuances and retained cash flows

For the year ended December 31

1. Average units on a time weighted average basis for the three-month period ended December 31, 2024 was 792.3 million (2023: 792.2 million)

2. Payout ratio defined as distributions paid (inclusive of GP incentive and preferred unit distributions) divided by FFO

3. ROIC is calculated as AFFO, adjusted for estimated return of capital, divided by average invested capital

4. Includes net income attributable to limited partners, the general partner, and non-controlling interests – Redeemable Partnership Units held by Brookfield, Exchange LP units, BIPC exchangeable LP units and BIPC exchangeable shares

5. Average limited partnership units outstanding on a time weighted average basis for the three-month period ended December 31, 2024 was 461.8 million (2023: 461.5 million)

Performance Highlights

- FFO of \$646 million or 0.82 per unit in the fourth quarter represents an increase of 4% over the prior year
 - Organic growth of 7% was driven by annual rate increases, volume growth across our critical infrastructure networks, higher utilization and market sensitive revenues at our midstream operations and the commissioning of capital projects over the last 12 months
 - A net positive contribution from three tuck-in acquisitions, including the acquisition of a North American retail colocation data center business, an additional 10% interest in our Brazilian rail network and a follow-on investment at our Indian telecom tower operation
 - Results were partially offset by higher borrowing costs and foreign exchange
- Quarterly distribution of \$0.405 per unit represents an increase of 6% compared to prior year
- Payout ratio for the quarter of 64% falls within our long-term 60-70% target range
- Net income during the period benefited from gains on revaluation of our data center properties and our corporate foreign currency hedging program

Financial Results

- Adjusted EBITDA and FFO were \$317 million and \$202 million, respectively, versus \$332 million and \$218 million, respectively, in the prior year
- Commercial & Residential Distribution: Results benefited from inflation indexation, growth in the customer base at our U.K. regulated distribution business and capital commissioned into rate base over the last 12 months
- Regulated Transmission: Adjusted EBITDA and FFO decreased from the prior year due to the depreciation of the Brazilian real
 - FFO was further impacted by higher borrowing costs from an upfinancing completed at our regulated pipeline in Brazil

Financial Results

- Adjusted EBITDA and FFO were \$403 million and \$295 million, respectively, versus \$387 million and \$292 million, respectively, in the prior year
- Diversified Terminals: Adjusted EBITDA and FFO benefited from inflationary increases and higher utilization at Triton, our global intermodal logistics operation (FFO was impacted by higher borrowing costs)
- Rail: Adjusted EBITDA and FFO benefited from inflationary tariff increases of 4%
 - Current year results reflect contribution from an additional 10% interest in our Brazilian rail network
- Toll Roads: Adjusted EBITDA and FFO benefited from inflationary tariff increases of 5% and a 7% increase in volumes across the portfolio
 - Results were impacted by the depreciation of the Brazilian real

Midstream Operations

1. Prior year revenues and costs attributable to revenues for the transport segment have been adjusted to present the numbers on a net basis

2. The above tables provide each segment's results in the format that management organizes its segments to make operating decisions and assess performance. Each segment is presented on a proportionate basis, taking into account Brookfield Infrastructure's ownership in operations using consolidation and the equity method whereby the Partnership either controls or exercises significant influence over the investment, respectively. The above table reconciles Brookfield Infrastructure's proportionate operating results to consolidated operating results presented on the Partnership's consolidated statements of operations by removing contributions from investments in associates, reflecting the contributions attributable to non-controlling interests, and adjusting for working capital

3. Includes net income attributable to limited partners, the general partner, and non-controlling interests – Redeemable Partnership Units held by Brookfield, Exchange LP units, BIPC exchangeable LP units and BIPC exchangeable shares

Use of Non-IFRS Measures

- **Funds from operations (FFO), Adjusted funds from operations (AFFO), Adjusted EBITDA, Adjusted earnings, invested capital** and their per share equivalents, where applicable, are non-IFRS measures which do not have any standard meaning prescribed by IFRS and therefore may not be comparable to similar measures presented by other companies
 - FFO, Adjusted EBITDA, Adjusted Earnings and AFFO include balances attributable to the Partnership generated by investments in associates and joint ventures accounted for using the equity method and excludes amounts attributable to non-controlling interests based on the economic interests held by non-controlling interests in consolidated subsidiaries.
 - FFO, AFFO, Adjusted earnings and invested capital are reconciled to Net Income and Partnership capital, respectively, the closest measures determined under IFRS on pages 41, 42 and 48, respectively
- **FFO** is defined as net income excluding the impact of depreciation and amortization, deferred income taxes, mark-to-market gains (losses) and other income (expenses) that are not related to the revenue earning activities and are not normal, recurring cash operating expenses necessary for business operations
 - Brookfield Infrastructure uses FFO to assess its operating results
- **Adjusted EBITDA** is defined as net income excluding the impact of interest expense, depreciation and amortization, income taxes, mark-to-market gains (losses) and other income (expenses) corresponding to amounts that are not related to the revenue earning activities and are not normal, recurring cash operating expenses necessary for business operations
 - Brookfield Infrastructure uses Adjusted EBITDA as a measure of operating performance
- **Adjusted Earnings** is defined as net income attributable to our partnership, excluding the following:
 - Incremental depreciation and amortization expense attributable to purchase price accounting and in accordance with our partnership's accounting policy to measure property, plant and equipment using the revaluation method
 - Mark-to-market gains (losses) and other income (expenses) corresponding to amounts that are not related to the revenue earning activities and are not normal, recurring expenses necessary for business operations
 - Gains on the disposition of subsidiaries, associates and joint ventures
- **AFFO** is a measure of our long-term sustainable performance and is calculated as FFO less capital expenditures required to maintain the current performance of our operations (maintenance capital expenditures)
- **Invested capital** tracks the amount of capital that has been contributed to our partnership and is a measure we utilize to assess returns on capital deployed, relative to targeted returns
